Detail of side view

- Capacity of 60 and 100 litres upper emptying and 75 litres frontal door.
- Self-extinguishing certified.
- Available in 2 versions:
 - Upper emptying
 - Frontal door
- Upper emptying collection system version :
 - Hinged smart inner ring bag holder joined to the body of the bin.
 - Metal inner liner with elastic band to keep the bag in place.
- Frontal door version collection system version:
 - Inner ring bag holder with full extraction telescopic rails version, with elastic band to keep the bag in place.
 - Metal inner liner with elastic band to keep the bag in place.
- Available lids: open top and self-closing flap. The 60 litres version with pedal has a soft-closing flap only.
- Hinged lid with waste identification included.
- The hinges and inner ring bag holder are made of zinc-plated steel.
- Altea bin is made of 1 and 2 mm cold rolled steel plates which have been hot dip galvanized.
- It includes a thermo-heating polyester powder coated finish.
- Bins of the same version can be combined to create large recycling stations.
- Can be fixed to the ground with 2 M6 expanding bolts (not included).
- Accessories: frontal waste adhesives and kit with expanding bolts to fix the bin to the ground.
- Easy emptying system: our bins must be safe, ergonomic and clean. This bin has been designed and produced with an ergonomic and efficient emptying system which minimizes the risk of ripping of the bag in the extraction.
- Plastic bags: this bin is compatible with standard bags available in the market. However, Cervic Environment have developed "Slim-fit" bags (tailor-made for our bins) which improve the performance and the aesthetic of the bins. Available from some models of Altea bin.
- Suitable to be used indoor and outdoor under normal weather conditions. In case of extreme weather conditions, such as high salinity, temperature or humidity, an additional special treatment can be included. Check extra cost and MOQ.
- Guaranteed reliability: this product has satisfactorily exceeded functionality and endurance tests under real environmental and usage conditions.

In order to process your order, we require you to complete the following detailed reference.

Detailed Reference:

20 41 **CODE FOR BODY** / **CODE FOR LID SYSTEM** / **CODE FOR COLLECT. SYST.** / **WASTE COLOUR CODE** / **WASTE SIGN CODE**
